## SCREENING OF LIQUIDS AT OSCC

Dear Valued customer,

Oslo Seafood & Cargo Center AS would like to kindly inform you about the following.  
After a clear instruction from Norwegian Civil Aviation Authorities (CAA) we can unfortunately not screen any liquids.

All Liquid cargo must be delivered to our terminal already secured. In case the cargo arrives to terminal in unsecured status, the only alternative to send the cargo out of OSL is to send it as unsecured by road. In this way the cargo could be screened at the next destination.

The Norwegian Civil Aviation Authorities (CAA) advises all regular exporting companies to become known consignors (KC). For further information about this we kindly advice to contact the CAA.

Yours sincerely,

**Wouter Severs**
