SCREENING OF LIQUIDS AT OSCC

Dear Valued customer,

Oslo Seafood & Cargo Center AS would like to kindly inform you about the following.
After a revised instruction from Norwegian Civil Aviation Authorities (CAA) we are now allowed to screen shipment containing liquids once again.

Shipments containing liquids that AVARN Security are not able to screen with X-ray, will not be able to be secured at all. These will be able to be send out of Norway with un-secured status with road transport.

The Norwegian Civil Aviation Authorities (CAA) still highly recommends all regular exporting companies to become known consignors (KC). For further information about this we kindly advice to contact the CAA.

Please contact us in the event you should have any questions in relation to the above information.

Yours sincerely,

Wouter Severs
Customer Relations & Security Manager
